# Authors' Index to the Eighteenth Bibliography

The Roman figures refer to countries; the other words, as *China, astronomy,* etc., refer to the sections of Parts II and III bearing these titles. This index will enable one to find more easily the papers analyzed in the present bibliography, and also to see at a glance what each writer is doing.

# Authors' Index to the Nineteenth Bibliography

The Roman figures refer to centuries; the Arabic figures, to the sections of Parts II and III, which are numbered consecutively from 1 to 59. This index will enable one to find more easily the papers analyzed in the present bibliography, and also to see at a glance what each writer is doing.

March 25, 1926. ELIZABETH GILPATRICK STEWART.
